TECHNICAL SKILLS

AI & AUTOMATION

- n8n
- Zapier
- Workflow Automation
- AI Agents
- Claude
- ChatGPT
- Prompt Engineering

INTEGRATIONS & APIS

- REST APIs
- Webhooks
- MCP Servers
- Google Sheets Integration
- Third-Party System Integration

DEVELOPMENT

- JavaScript
- HTML
- CSS
- Git & GitHub

TOOLS

- Postman
- Windsurf IDE
- VS Code

SOFT SKILLS

- Problem Solving
- Communication
- Teamwork
- Adaptability
- Analytical Thinking

PROFESSIONAL SUMMARY

Junior AI Automation Engineer and Software Engineering graduate with hands-on experience building intelligent automation workflows using n8n, Zapier, MCP Servers, REST APIs, and AI models including ChatGPT and Claude. Skilled in designing end-to-end automated systems that connect applications, data sources, and AI services to eliminate manual processes and improve operational efficiency. Passionate about AI automation, workflow orchestration, prompt engineering, and scalable business process automation.

EXPERIENCE

Junior AI Automation Engineer

Wanile Technologies, Lahore, Pakistan

Jan 2026 – Present

- Designed and deployed automation workflows using n8n and Zapier.
- Integrated AI models including Claude and ChatGPT into business processes.
- Built API and webhook-based workflows connecting multiple applications.
- Configured MCP Servers to connect AI models with local files, APIs, and external services.
- Automated content generation, data extraction, and intelligent routing systems.
- Reduced repetitive manual work through AI-powered workflow automation.

AI-Assisted Full-Stack Developer

Pharmacy Management System

Dec 2025 – Jan 2026

- Developed a Pharmacy Management System using AI-assisted development tools.
- Implemented authentication, inventory management, prescriptions, billing, and analytics.
- Managed UI design, development, testing, and deployment.
- Utilized AI tools to accelerate development and improve productivity.

KEY PROJECTS

AI-Powered Workflow Automation

- Created automated workflows using n8n and Zapier.
- Connected web forms, email systems, Google Sheets, and AI services.
- Implemented intelligent routing, data extraction, and automated business processes.

Pharmacy Management System

- Authentication & Role Management
- Inventory Tracking
- Prescription Management
- Payment Processing
- Analytics Dashboard

EDUCATION

BS in Software Engineering

University of Lahore

2021 – 2025

CERTIFICATIONS

- Microsoft Technology Associate (MTA)
- Google (AI Essentials)
